 - (x) Pre-colonial education in Tanzania produced well-rounded personalities to fit into society.

2. Read the following passage carefully and then answer the questions that follow.

For although political and social stability is necessary to any real national or personal freedom, so too is change in our circumstances. At present our national freedom often exists on paper only, for our country is so poor, and so weak relative to other nations, that we do not play our rightful part in the human community. Decisions on matters which vitally concern us can be and often are made without any reference to us. And this is understandable. Even defending our national integrity against the intervention of foreign powers stains us the utmost. A very great change in our economic well-being is necessary before we can meet these responsibilities of national freedom.

Nor is it only in national terms that real freedom is undermined by our poverty. What freedom has our subsistence farmer? He scratches a bare living from the soil provided the rains do not fail, his children work at his side without schooling, medical care, or even good feeding. Certainly he has freedom to vote and to speak as he wishes. But these freedoms are much less real to him than his freedom to be exploited. Only as his poverty is reduced will his existing political freedom become properly meaningful and his right to human dignity become a fact of human dignity.

Questions:

- (a) Supply the title to this passage.
- (b) Why does our national freedom exist on paper only?
- (c) According to the passage what freedom does a subsistence farmer need?
- (d) Mention two problems associated with poverty at national level.
- (e) What is the basis of national freedom?

SECTION B

This section has EIGHT (8) questions. Attempt any THREE (3) questions. This section carries 60 Marks.

- 3. Describe how the internal forces contributed to the growth of nationalism in Tanzania Mainland after the Second World War.
