## SECTION B (20 marks)

Answer **ALL** questions in this section.

3. Read the following passage and then answer the questions that follow.

The relation we seek between ourselves and the rest of the world is a relation of equality. It is mainly for that reason that Tanzania has opposed the treaty against the spread of nuclear weapons. We regard it as a most unequal treaty. The treaty asks non-nuclear nations, including potential nuclear states, to denounce the right to make or possess nuclear weapons, but it does not ask the nuclear powers themselves to stop making any more nuclear weapons; it does not ask the nuclear powers to destroy the weapons they already possess.

Furthermore, it does not ask the nuclear powers to pledge that they will neither use nor threaten to use nuclear weapons against states which agree to sign the treaty. Instead, the nuclear powers, on their own, simply declare that they will protect non-nuclear signatories against nuclear attack.

Under this treaty even if a nation could swear upon the Bible, or the Holy Qur'an, that it wanted to develop nuclear explosives purely for peaceful purposes, it would not be allowed to do so. It must buy such explosives from the nuclear powers. This is the first time in history that a tremendous and far-reaching human discovery is made the monopoly of a few.

## QUESTIONS

- (a) Identify the suitable title for this passage.
  - (b) Why does Tanzania oppose the treaty against the spread of nuclear weapons?
  - (c) From the passage outline the weakness of the treaty.
  - (d) Why is the author puzzled with the result of man's development in science and technology?
  - (e) According to the passage, how can non-nuclear powers get and use nuclear technology?
4. (a) Point out ways of acquiring citizenship in Tanzania.
- (b) State five responsibilities of a good citizen.
