- (x) Valves in veins prevent the backflow of blood. _____

3. Match the item in List A with the correct item in List B by writing its letter below the number of the item in List A in the table provided.

LIST A	LIST B
(i) A disorder of the digestive system	A. Amylase
(ii) An enzyme that converts lipids to fatty acids and glycerol	B. Constipation
(iii) An enzyme that converts starch to maltose	C. Cow
(iv) It contains an acidic medium for digestion	D. Duodenum
(v) Sites for dumping waste and covering it with soil	E. Ferns
(vi) The first part of the small intestine	F. Human being
(vii) The process of burning waste until it is completely destroyed	G. Incineration
(viii) The process of turning waste into new products	H. Landfills
(ix) The stomach of this organism have four chambers	I. Lipase
(x) They have true roots, stems and leaves.	J. Mosses
	K. Pit latrines
	L. Recycling
	M. Stomach
	N. Trypsin
	O. Typhoid

ANSWERS

LIST A	(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
LIST B										

SECTION B (50 MARKS)

4. (a) Define the following terms:

(i) Classification

(ii) Binomial nomenclature

(b) Write three points on the importance of classification.

- (i) _____
(ii) _____
(iii) _____

5. (a) What is blood circulation?

(b) Explain three points on the importance of blood circulation in human being.

- (i) _____
(ii) _____
(iii) _____

(c) Mention two disorders of human blood circulatory system.

- (i) _____
(ii) _____

6. (a) What do you understand by the term “diffusion”?

(b) Name two structures concerned with gaseous exchange in plants.

- (i) _____
(ii) _____

(c) Explain the importance of gaseous exchange in plants.

- (i) _____
(ii) _____

7. (a) What is natural environment?

(b) Explain the importance of the natural environment.

(i) _____

(ii) _____

(c) Explain two significance of food chains and food webs in real life situation.

(i) _____

(ii) _____

8. (a) Outline four reasons why it is important to study Biology.

(i) _____

(ii) _____

(iii) _____

(iv) _____

(b) What is respiration?

(c) Differentiate between aerobic and anaerobic respiration.

Aerobic respiration	Anaerobic respiration
(i) _____	_____
(ii) _____	_____
(iii) _____	_____
(iv) _____	_____

SECTION C (20 MARKS)

Choose **ONE** question

9. Write an essay on kwashiorkor using the following guidelines:

- meaning
- cause
- symptoms
- effects
- prevention and control.

10. Write an essay on tuberculosis using the following guidelines:

- cause
- transmission
- signs/symptoms
- effects
- prevention and control.
