SECTION B (50 MARKS)

4. Read the following passage carefully and answer the questions that follow:

Education is necessary to improve quality of labour force. Through education, knowledge and skills are obtained to enable one produce more and better quality products. In agriculture for example, one can produce more and better crops by using the knowledge and skills obtained in agricultural lessons in schools or colleges. The knowledge and skills include proper use of fertilizers, irrigation methods, pest control and conditions necessary for the growth of crops and weeding.

Education also offers skills related to employment and income opportunities. Technical or vocational training is provided so as to offer such knowledge and skills. People with such knowledge and skills can start their own business and gain income.

Questions

- (i) Suggest a suitable title for this passage.
- (ii) Identify knowledge and skills that can enable one to produce more and better crops according to the passage.
- (iii) What is the aim of education?
- (iv) What are the other skills pointed out apart from agricultural skills?
- (v) What is the aim of vocational training?
