One day, our teacher took us to Mkombozi village. Mkombozi is a small village near Kazimoto town. My village is between Kazimoto town and Nela Village. The villagers of Mkombozi keep their environment well. They plant and protect trees. The village looks green with many trees. The weather around Mkomazi Village is cool with a lot of rain. Our teacher told us that trees help to get cool weather and a lot of rain. The visit was very good. It helped me to understand why my village is dry.
