Candidate's Examination Number _____

SECTION A: (20 MARKS)

COMPREHENSION

Answer ALL questions in this section.

1. Read the following passage and answer the questions below.

In Fujoni village lived a very hardworking farmer named Mr. Makame. Mr. Makame had four children. His first child was a girl, her name was Farashuu. Farashuu was very intelligent and hardworking like her father. Farashuu lived in town with her grandmother. Three Mr.Makame's children were boys. Their names were Faki, Kasimu and Hamad. All these three boys were strong and healthy but they were very lazy.

Mr. Makame was sad thinking about his sons and his farm. One day, Mr. Makame got an idea. He called his sons and said, "Faki! Kasimu! And Hamad! I have hidden some money in our farm land. You have to search and share the money among you."

The boys were very happy to hear that. Hamad was the first one to run to the farm to search the money. He followed by Faki. Faki started from one end, Kasimu searched from the other end and Hamad at the centre. They dug each and every grass to find the money but they could not find anything.

Mr. Makame said to his sons, "Dear boys!" "Now you have cleaned the entire field, why not we plant crops?" So the boys agreed with their father and started to grow different crops in the field. Days passed, and the crops grew very well. There were different fruits in the farm. The boys were very excited. Their father said, "Sons! This is the money I wanted you to share. The boys harvested the fruits; they ate some and sold others at Mwanakwerekwe market. They got a lot of money and from that day they helped their father in the farm every day.
