SECTION B

3. Read the following passage and answer the questions that follow by writing the correct answer in the space provided:

Our district has a lot of wealth due to the natural resources which we have. These natural resources enable people to conduct different economic activities that provide a lot of money to our district. We have a river and the ocean in which fishing is conducted for food and business.

Fishing in rivers is called fresh water fishing and its fish are called fresh water fish. Fishing that is conducted in the ocean is called marine fishing and its fish are called marine fish. Fishing provides residents with employment and money. Various ways are employed in fishing depending on the area and the type of fish available. There is fishing by using fishing nets or hooks. Fishermen who use nets get more fish than those who use hooks. Nets with small holes have negative impact as they grab both big fish and fingerlings. Fishing of fingerlings leads to lack of fish in the area in future.

Questions

i) What is the importance of the natural resources?

ii) Mention one advantage of fishing.

iii) Which type of fish is obtained in the river?

iv) Which type of fishing is conducted in the ocean?

v) What negative impact is brought by fishing of the fingerlings?

vi) Which type of fishing provides us with abundant fish?

vii) What is the negative effect of fishing by using nets with small holes?

4. Standard four are required to draw the map of their school. What important elements should they consider when drawing the map? Identify Four elements

i) _____

ii) _____

iii) _____

iv) _____
